€99 · VAT included / με ΦΠΑ

Written vehicle assessment — report template

TEMPLATE ONLY — NOT A VEHICLE REPORT. This blank document illustrates the structure of the €99 pre-purchase assessment. It contains no checked vehicle, verified findings, scores, inspection measurements or purchase recommendation.

Scope and commercial terms

€99 total, VAT included. The agreed service is research and a written advisory assessment. Scope and payment must be confirmed before work starts. Physical inspection, paint measurements, OBD scans and separately purchased third-party reports are not automatically included; any such work is quoted separately.

Vehicle and request identification

Request reference / report date	To be completed for the actual request.
Customer reference / vehicle VIN	To be completed privately; unnecessary personal data is excluded.
Listing URL / seller / source country	Source and date of each supplied detail are recorded.
Agreed scope / information reviewed	Only the actual agreed scope and available evidence are described.

Evidence record — completed only after review

Listing and availability	Source, review date and current availability; a listing is not a reservation.
Seller and documents	Identify documents reviewed, source and outstanding verification. A listing alone does not verify a seller.
Vehicle identity and specifications	Compare actual identifiers and supplied documents; note mismatches and limitations.
History, mileage and service records	Record the actual data source, coverage and date. Missing records do not prove a clean history.
Visible concerns and outstanding checks	Record supported observations and checks still needed. Do not infer physical measurements from photographs.
Cost items	List confirmed quotes separately from estimates and unknown amounts. No hypothetical tax, VAT or registration calculations.

How findings are labelled

Each actual finding identifies its source and date and is labelled according to the evidence: verified within the stated scope; seller/customer supplied and unverified; pending verification; or not available. These are record labels, not calculated scores. This template has no findings.

Summary and next steps

Evidence summary / limits	Completed by the reviewer from actual reviewed evidence.
Recommended next checks	Vehicle-specific documentary checks or separately quoted inspection, as appropriate.
Customer OK / availability check	Actual approval date and availability are recorded. Approval does not reserve the vehicle.
Purchase timing	Purchase proceeds within five days after customer OK, subject to availability. If unavailable, sourcing and all vehicle-specific checks restart with a new customer OK.
Purchase credit	The full €99 is credited once on a purchase through Balkan International where the written vehicle order is placed within 60 days after receiving the assessment; the agreed service terms apply.

Limits and contact

An assessment is not a guarantee of complete history, mechanical condition, availability, seller honesty, finance approval or final import costs. Mandatory consumer rights remain unaffected. Contact Rafaelidis Dimitris: info@balkan-international.com · +359878385141. Read the service and cancellation terms at balkan-international.com. Revision: 6 October 2026.
